Librizzi Associates Launches New Website

Clinton Twp, MI –December 3 2012. Established in 1971, Librizzi Associates has over 40 years of experience in serving the original equipment market. They have been a company devoted to representing manufacturers who are leaders in their respective fields and markets that demand cost effective, innovative solutions. Industries they serve include: Custom Injection Molding & Assembly, Insert & Reel to Reel Molding, Metal Injection Molding, Powder Metal Products, Elastomer Component Manufacturing, Conventional & Custom CNC Machining, Precision Screw Machine Products, and Precision Metal Stampings.

In the fourth quarter of 2012, Librizzi Associates refreshed their brand and developed an all new website to better serve the customers and the principals in the manufacturing industry. Librizzi Associates' newly launched website has a clean professional design and a user friendly layout to easily find information. The Associates page now includes profiles of our sales representatives to give you insight into our exceptional team. Librizzi Associates now has two principals that have been in partnership with our organization for 25 years or more. Congratulations and thank you to Ironwood Plastics and Webster-Hoff. Visit the website at <http://www.CJLasc.com>.
